

The current version of RLTK is 2.6. It requires at least Python version 2.5, although 2.7 is recommended. The software tree is publicly available in a Subversion repository, and the download page includes a daily snapshot of the production branch.

The earlier version 1 of RLTK was frozen on 19 May 2006 with release 1.21. That was the last version to support Python 2.1 and 2.2. As of 8 March 2012, it is still made available for download. Some
